### Overview

The GEMS Safeguarding Dashboard contains all data relating to safeguarding incidents from 1 September 2019. The data is displayed on five different tabs. Row-level security is in place which ensures each viewer can only access the data relating to their school.

### Headlines

The 'Headlines' tab provides an overview of the number of incidents per month with a series of breakdowns: Sub-category, Place, Severity, Status and timeliness of reporting.

### Reporting

The 'Reporting' tab provides a further breakdown in relation to the timeliness of reporting.

### Student Tracking

The 'Student Tracking' tab highlights students with multiple incidents and provides an incident chronology.

### Profile

The 'Profile' tab allows you to delve into the data and look for trends based on different criteria.

### Analysis by Type

The 'Analysis by Type' tab gives a high-level look at correlations between Severity, Place/Section and Sub-category.
